## PRICE OF WHEAT IS GIVEN A LIFT

Unfavorable Weather in the Northwest Strengthens Prices of Cereals.

Chicago, Ill., April 6.—Cool temperatures and much rain and some snow northwest, conditions adverse for seeding, had a tendency today to lift the price of wheat. Buying also followed reports of winter killing in scattered districts throughout many states. Initial sales here were at 1/2c to 3/4c advance. July started at 91c to 91 1/2c, a rise of 1/4c to 1/2c, and mounted to 92 1/2c.

The close was easy, with July at 92 1/2c, a net gain of 1/2c.

Unsettled weather made corn firm. Wheat strength counted also in favor of the bulls. May opened a shade off to 1/2c up at 74 1/2c to 75 1/2c and ascended to 76 1/2c.

The market continued firm throughout, closing 1/2c higher for May at 77 1/2c.

Cats developed firmness with other grains, but met unusual selling by commission houses. May started at 1/2c higher at 55 1/2c to 56 1/2c and touched 56 3/4c.

Increased cost of hogs gave provisions an upward tilt. Trade, however, was only moderate. First prices varied from last night's level to 1c dearer, with July delivery \$12.45 to \$12.50 for pork, \$10 for lard and \$9.85 for ribs.

## CLOVIS TAKES OVER ELECTRICAL WIRING

Clovis, N. M., April 6.—Another step was taken toward the municipal ownership of all public utilities and public service in Clovis, when the city council, by resolution, took over the electrical wiring of the city. The various electrical wiring supplies of the city are being inventoried and turned over to the city, and from this date the city fathers propose to do the electrical wiring for the public at actual cost of material and labor. An electrician has been employed who will have charge of the department. This is an entirely new departure from the regular order of things, and the result will be watched with keen interest here. It is stated by members of the council that this arrangement will mean a saving of from one-third to one-half of the former cost of electrical wiring. There are more than 200 residences now on the line current of the city's plant which are not wired and connected for current. Also the city plant is carrying less than one-fourth the load of its capacity.

The Santa Fe railroad has been, by order of the commissioners' court, included in the list of taxpayers for Curry county. The railroad has been exempt on much of its holdings in the county until this term of the commissioners' court, when \$450,000 was assessed against the railroad land situated 15 miles north of the city. These added assessments will materially lower the tax rate for Curry county another year.
